

# Good Governance for infrastructure Development

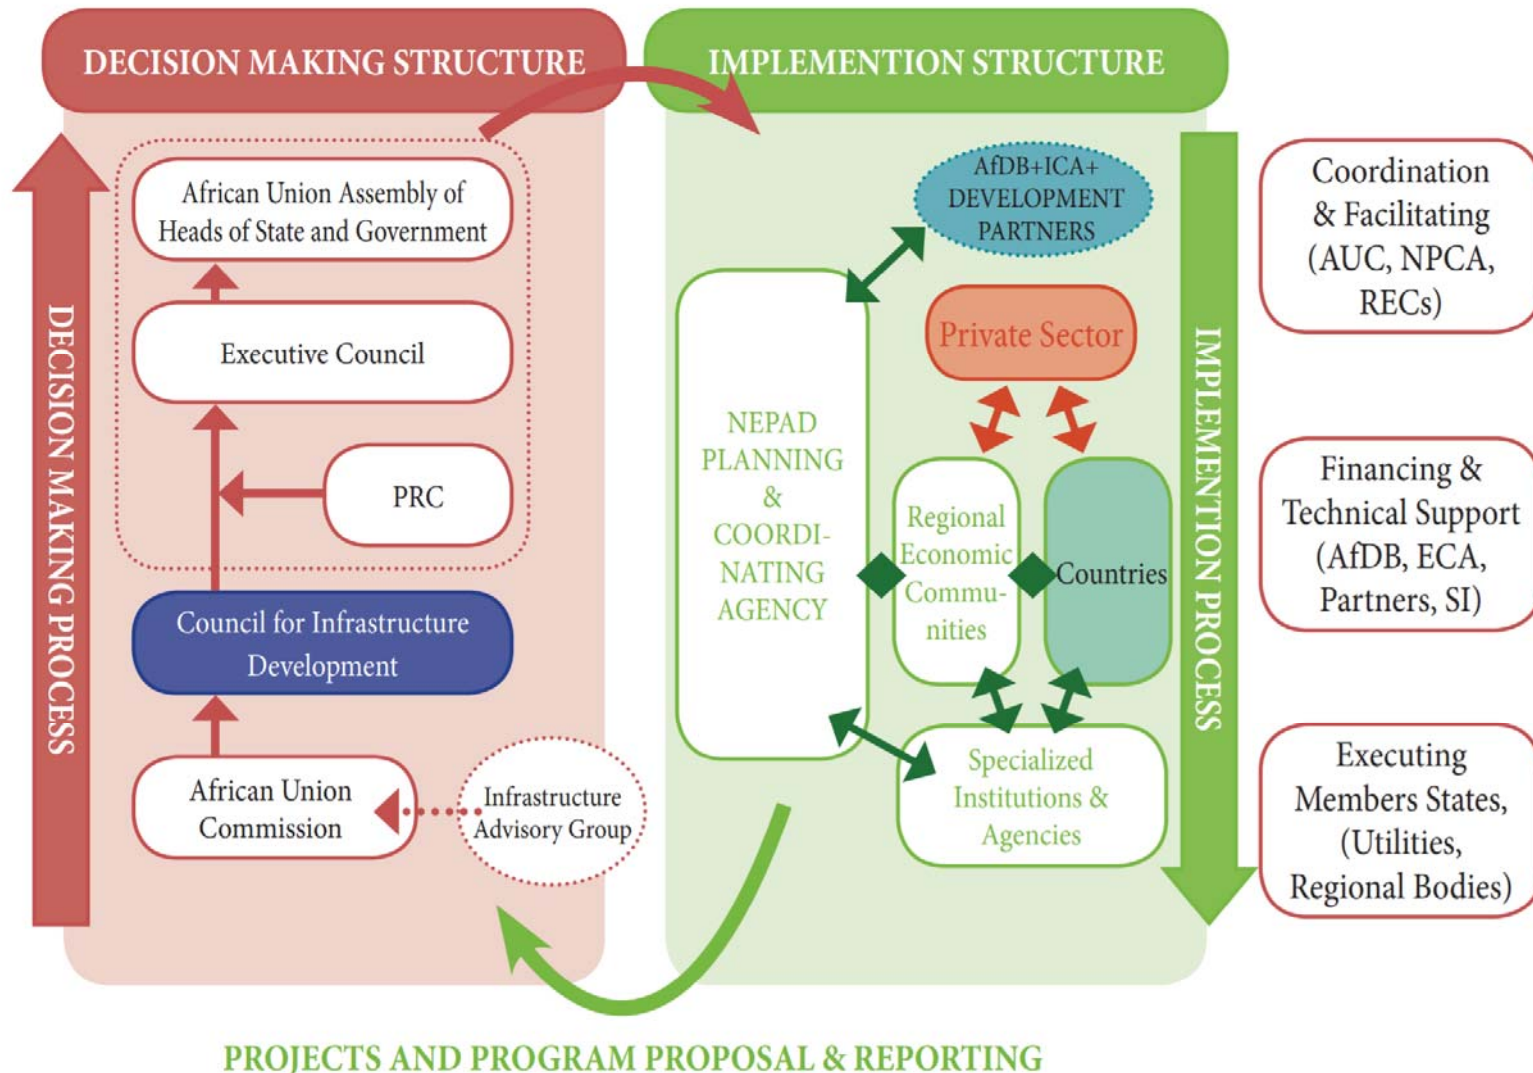

Mr. Symerre-Grey Johnson

4th PIDA WEEK, 26 November 2018

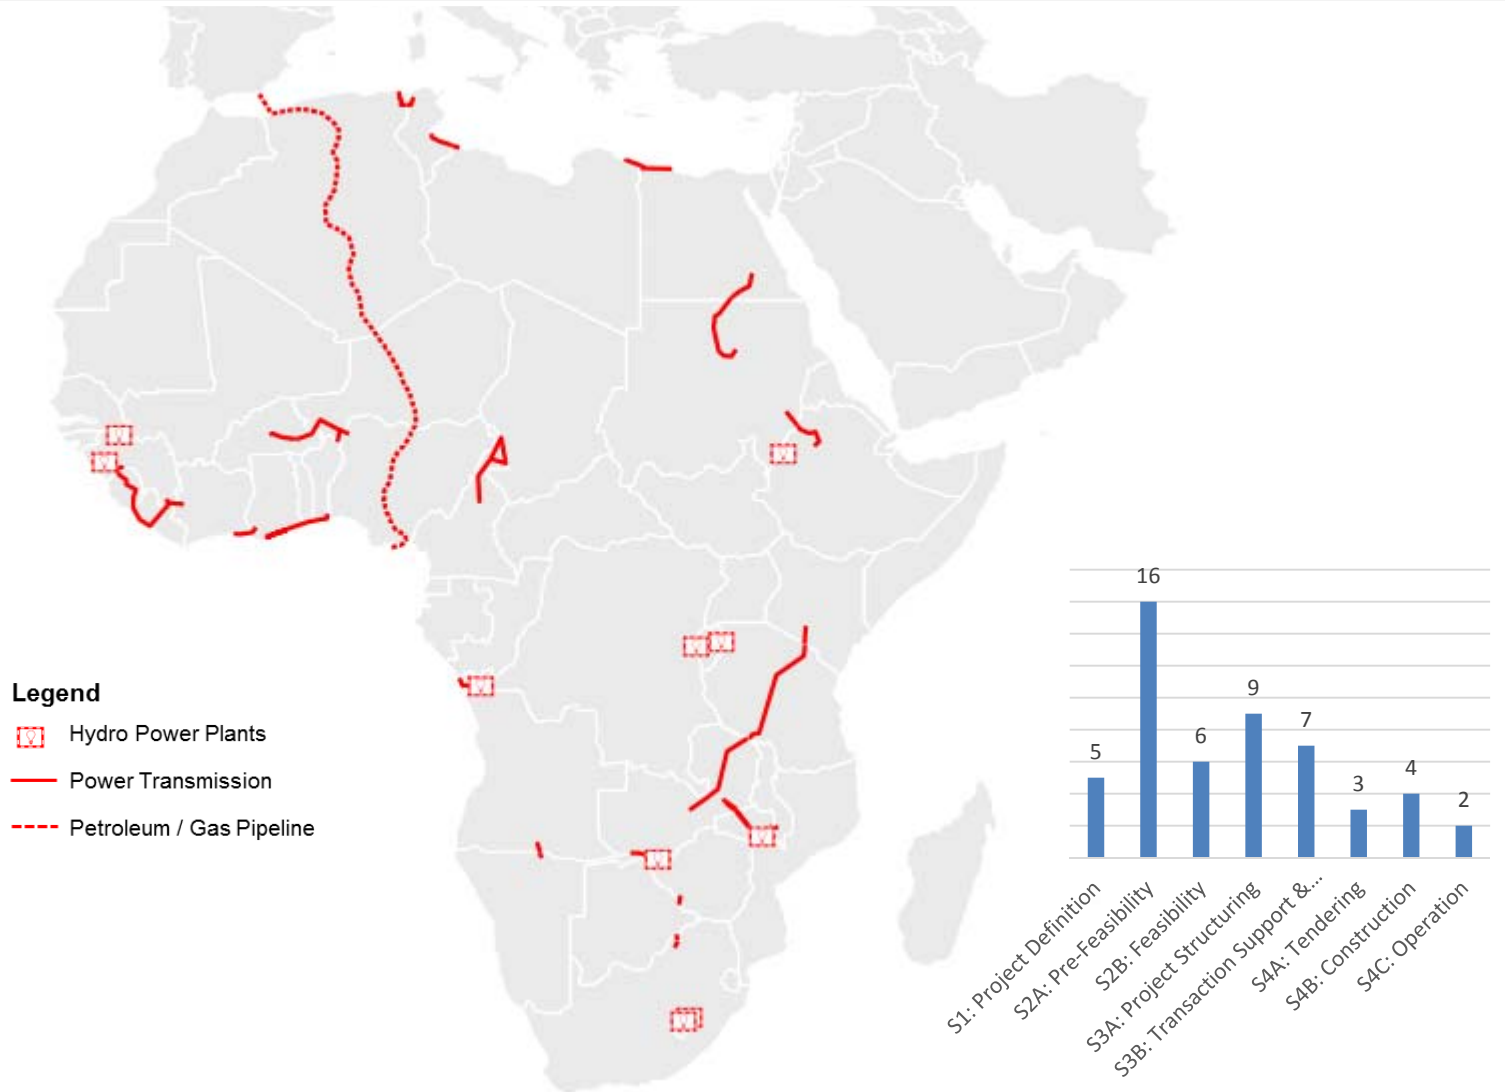

Victoria Falls, Zimbabwe

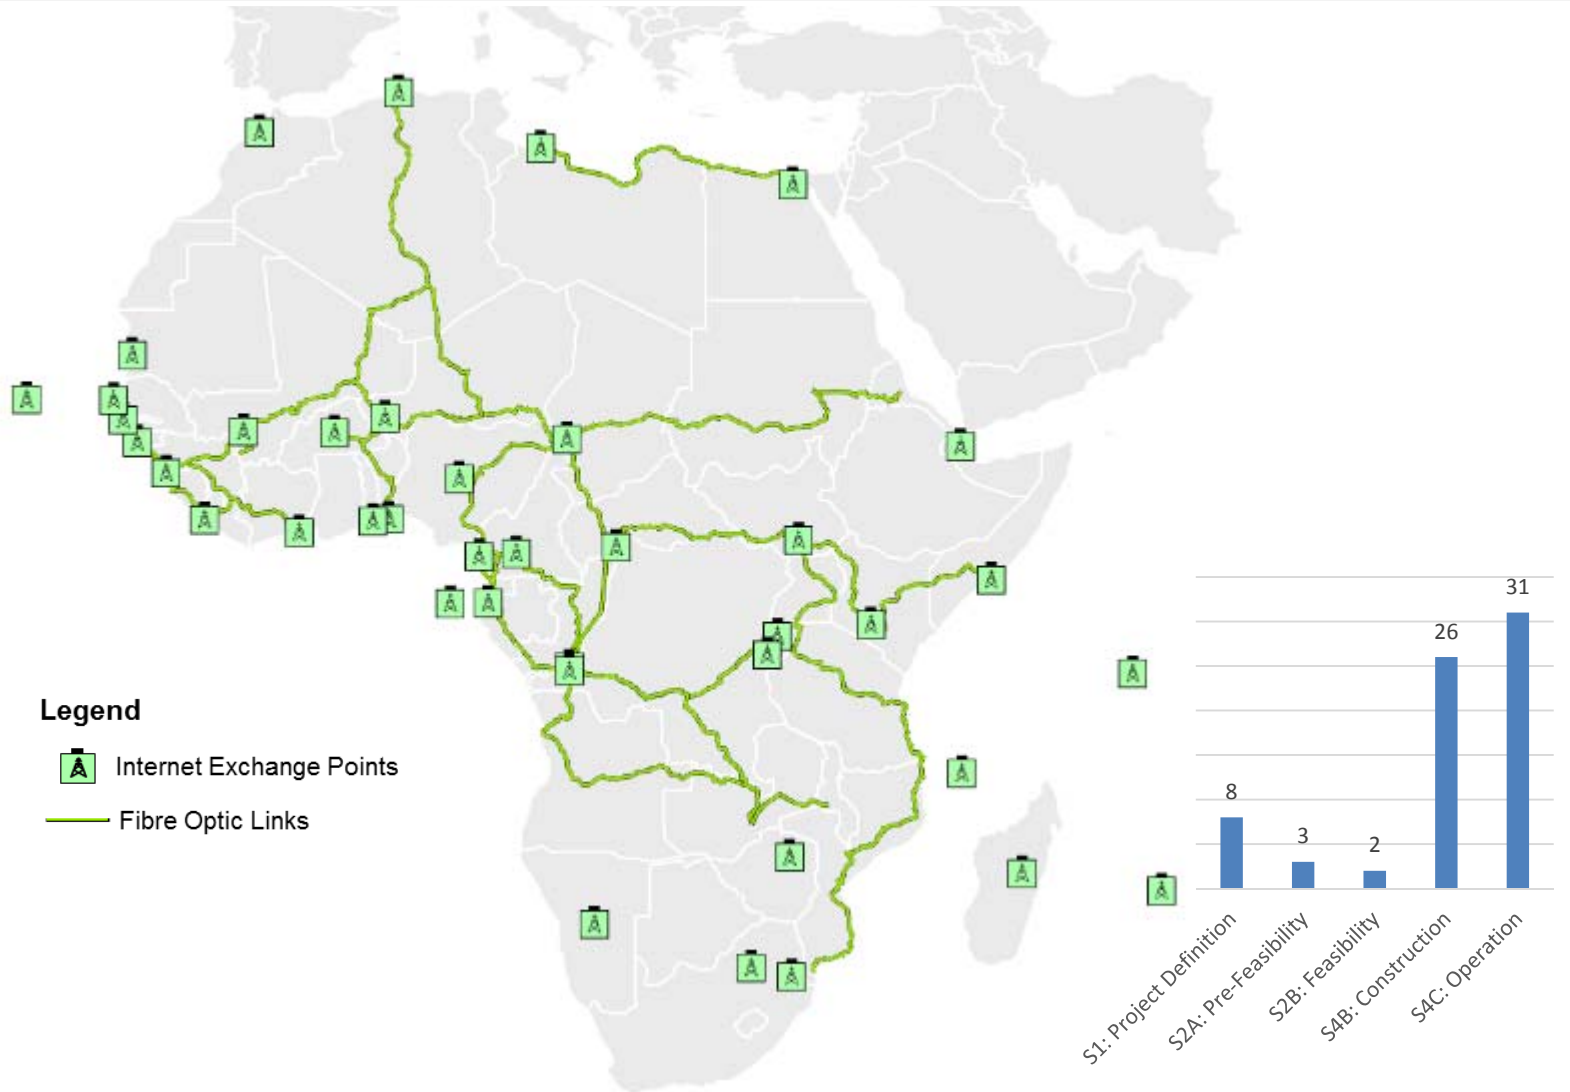

# Institutional Architecture

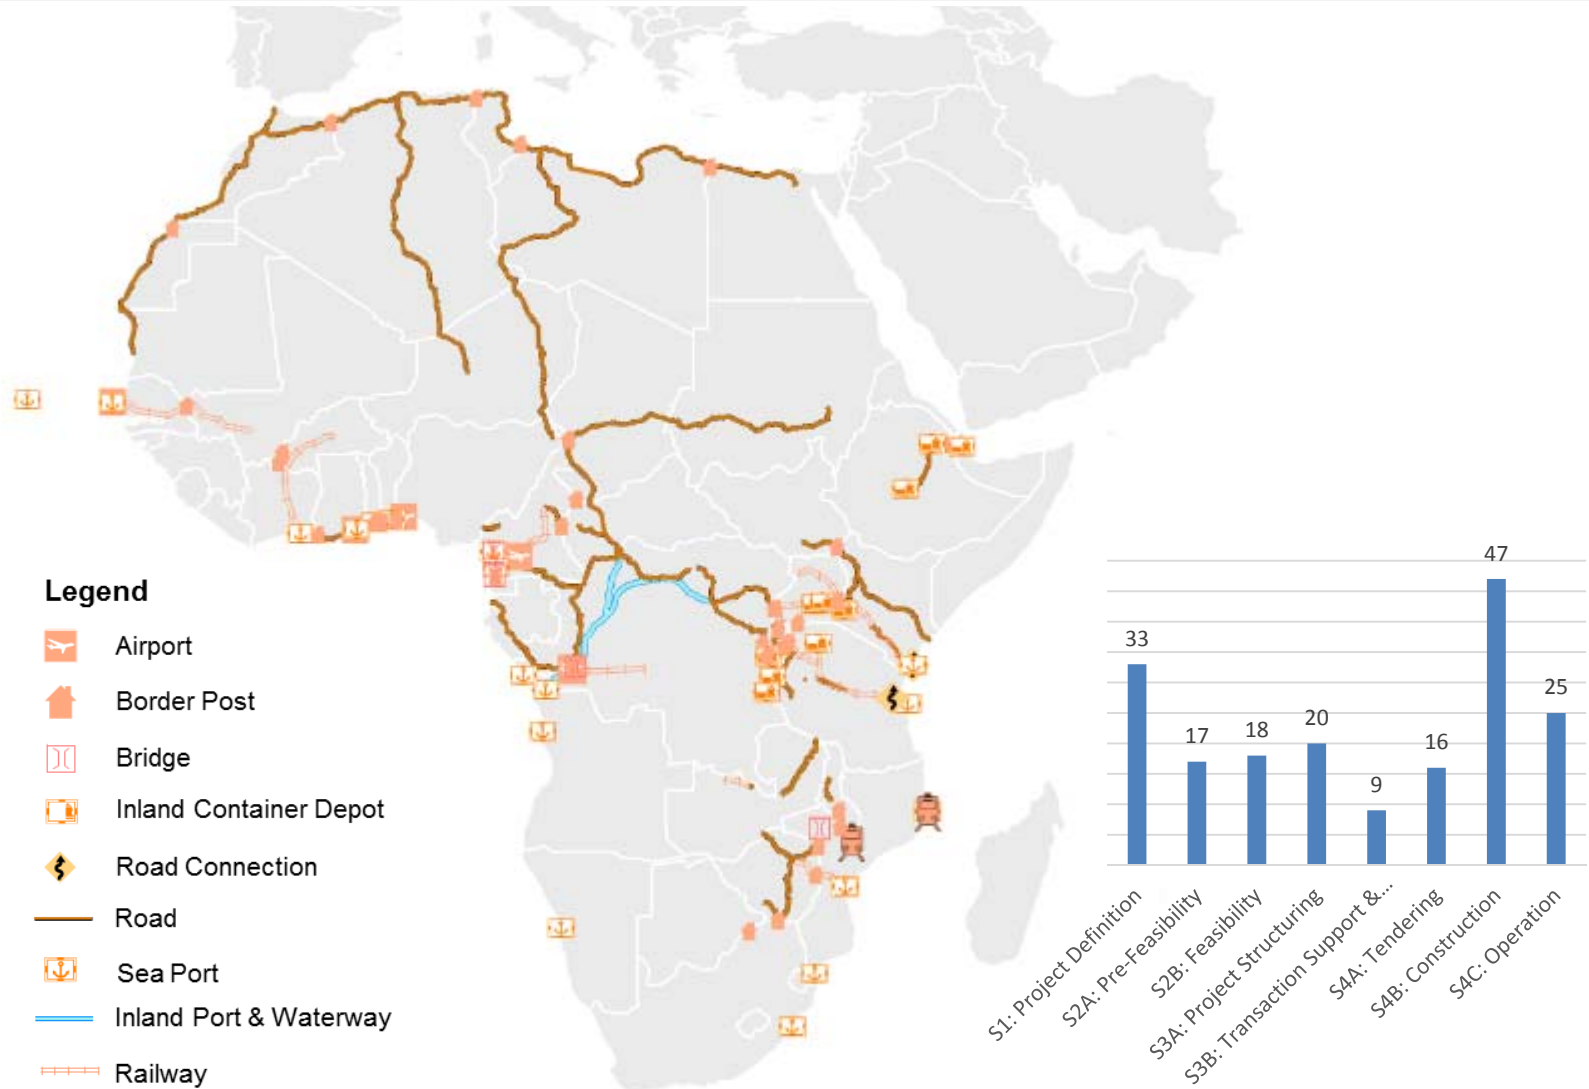

# Energy Projects

# ICT Projects

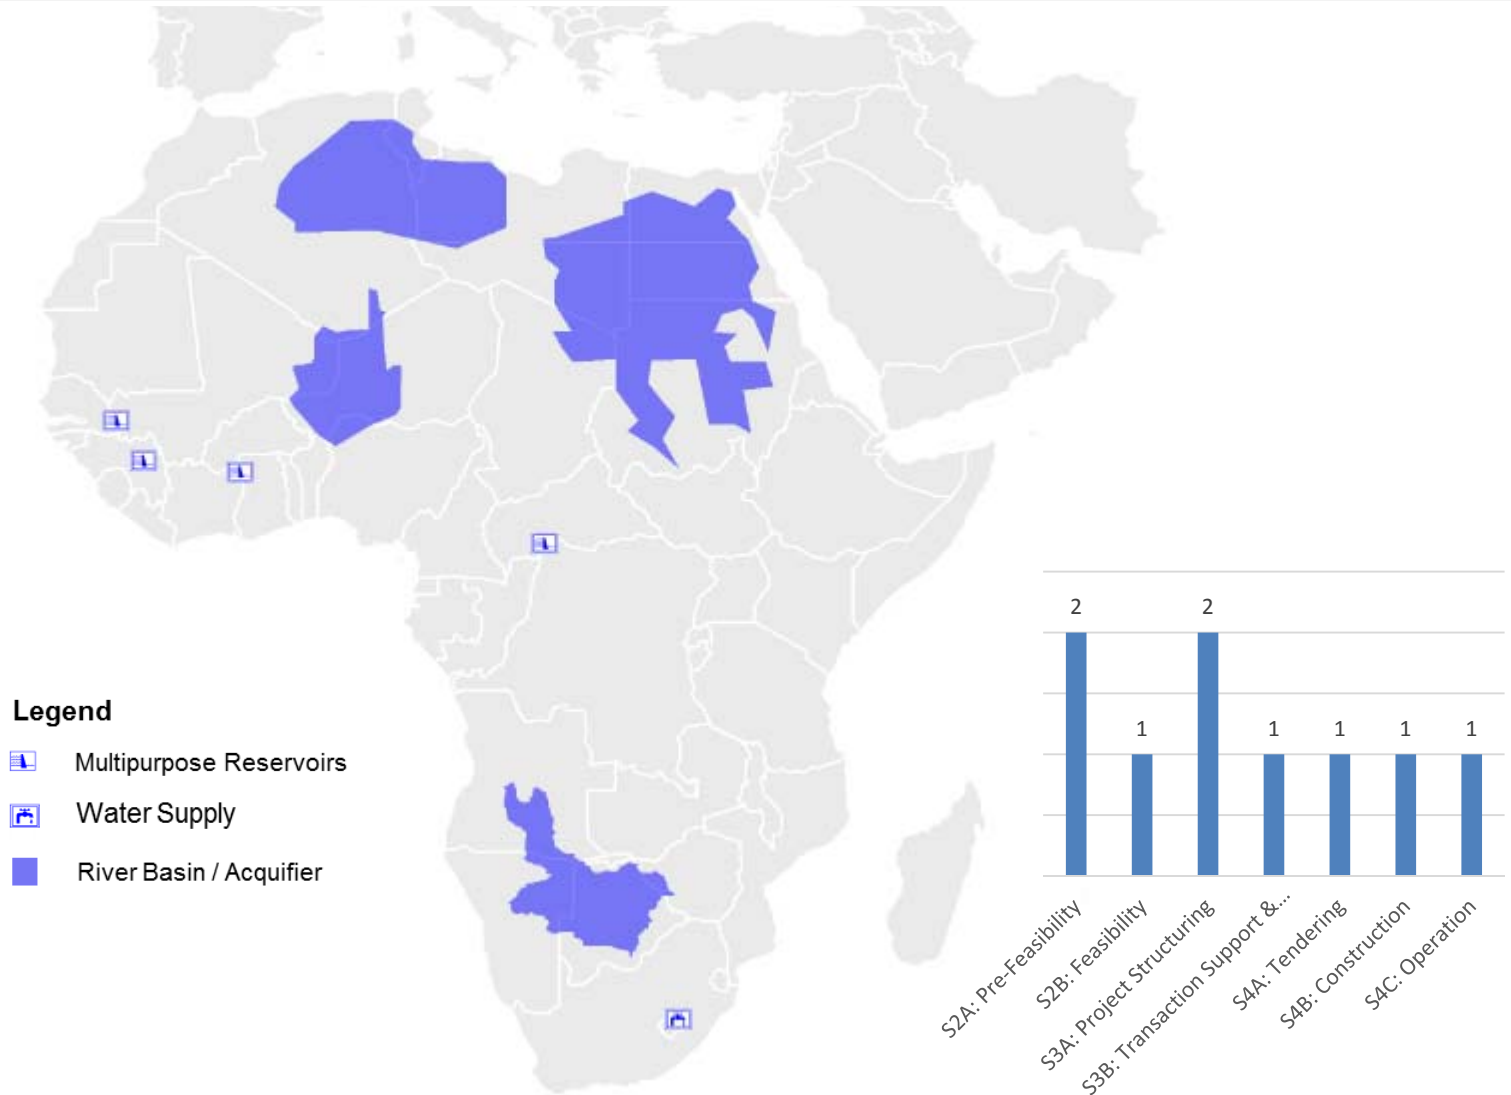

# Transport Projects

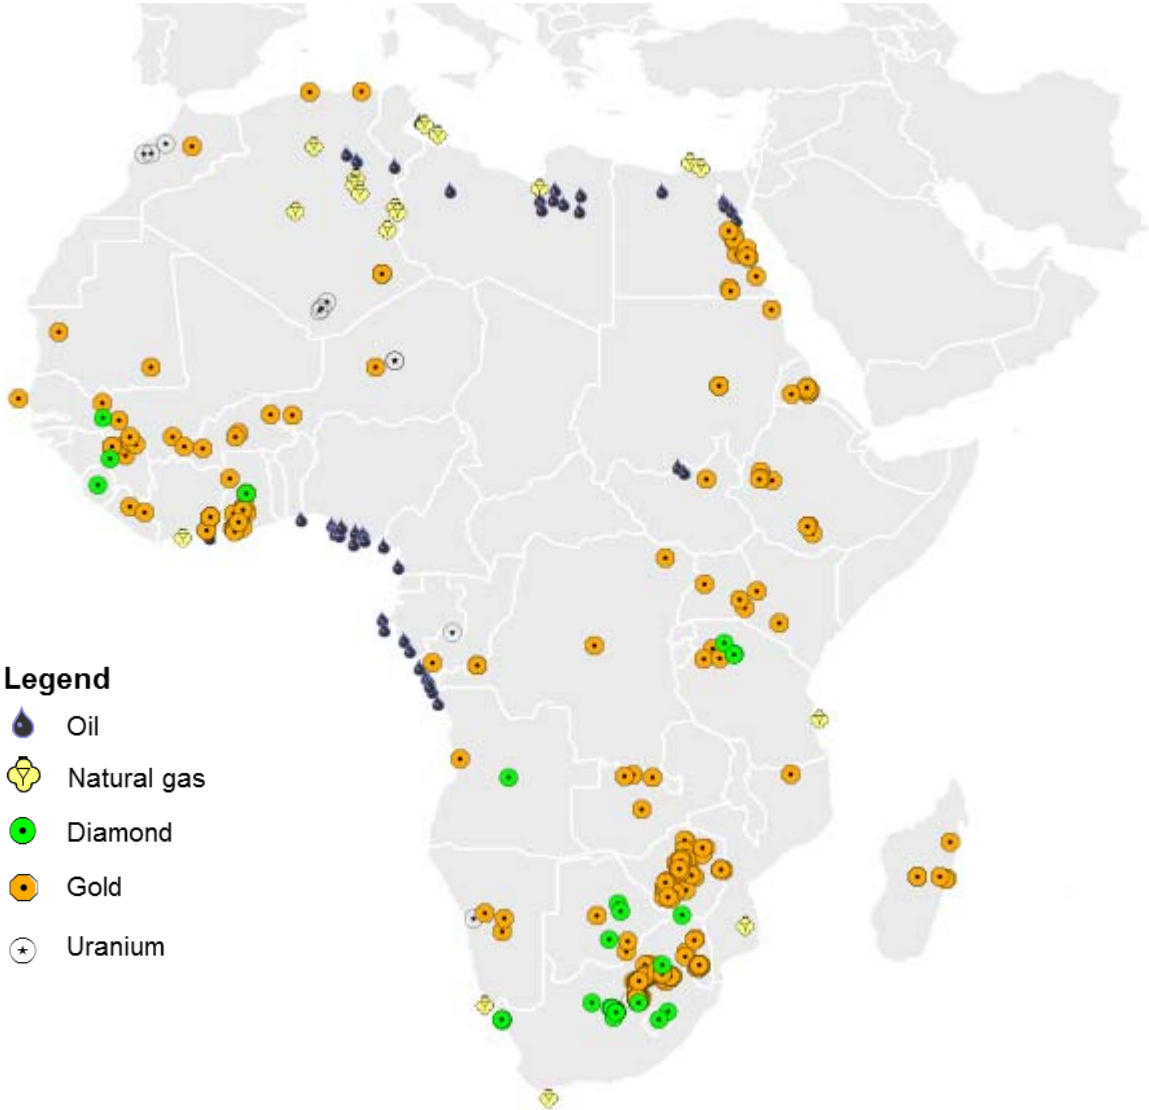

# Water Projects

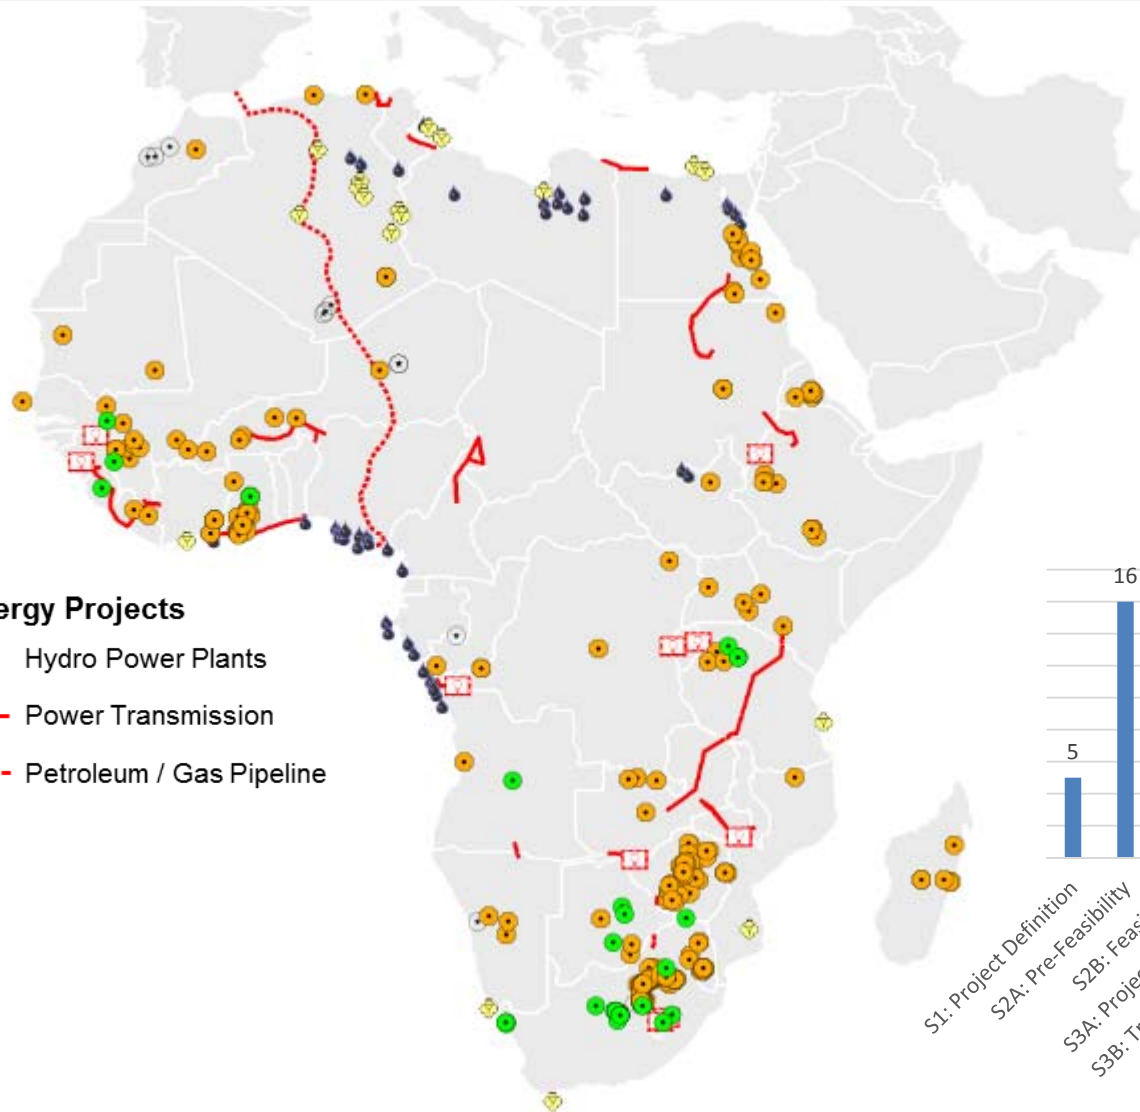

# Mineral Resources of High Economic Value

- Legend**
- Oil
  - Natural gas
  - Diamond
  - Gold
  - Uranium

# Energy and Resource

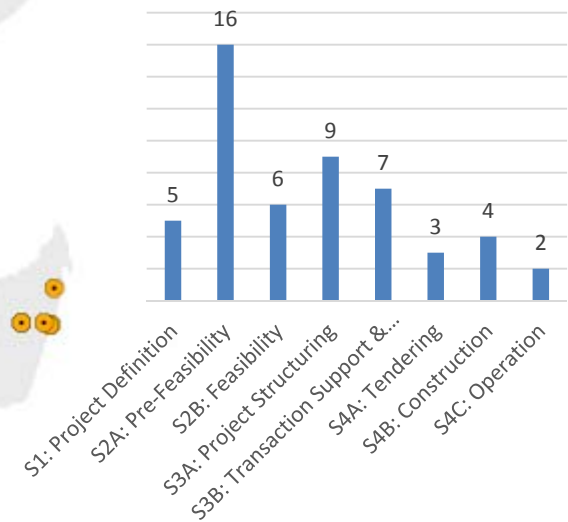

## Resource Type

- Oil
- Natural gas
- Diamond
- Gold
- Uranium

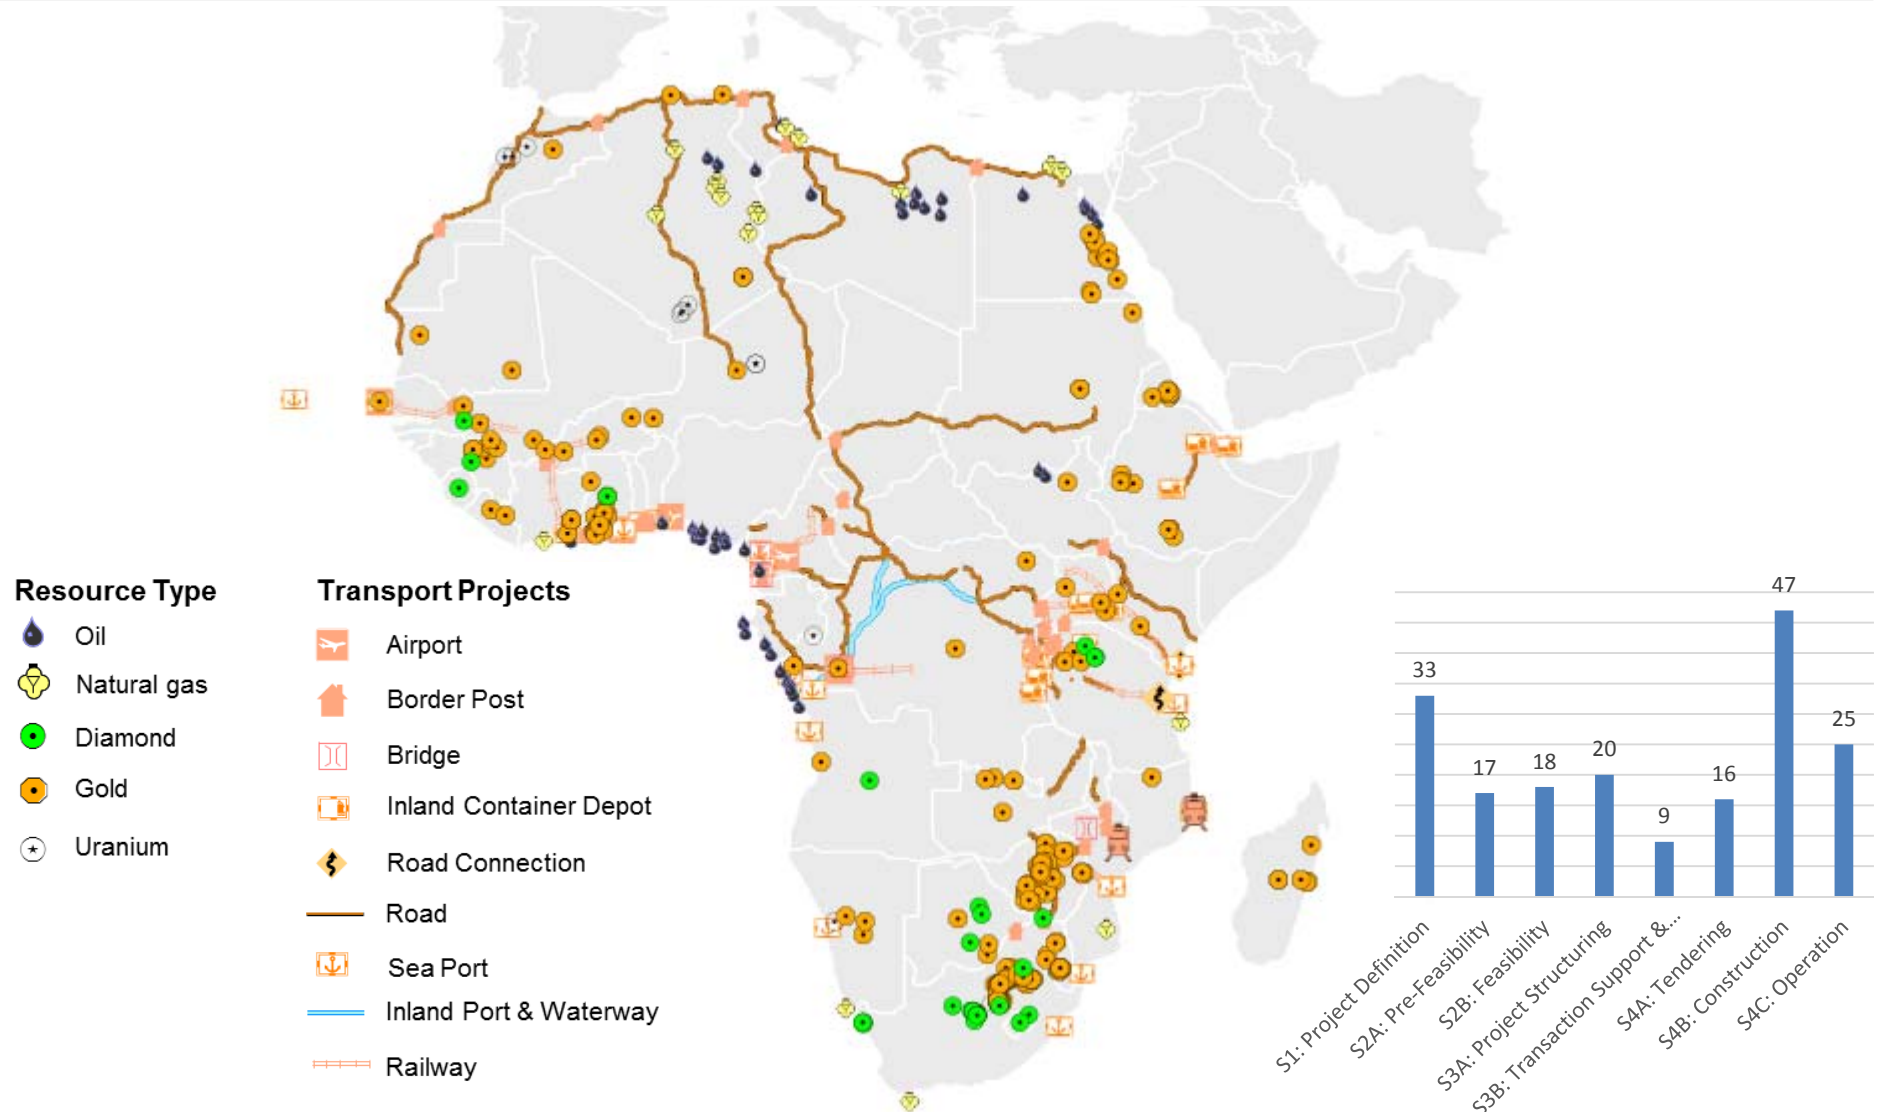

## Energy Projects

- Hydro Power Plants
- Power Transmission
- Petroleum / Gas Pipeline

# Transport and Resource

# Highlights on Governance & Infrastructure

1. Regional Tendering & Procurement
  - Regional procurement/tendering coupled with harmonized technical standards
  - E.g. N4 South Africa-Mozambique
2. Regional Power Purchase Agreements
  - Harmonize offtake procedures and commercial arrangements
  - Regional operationalization through 4 power pools
  - E.g. COMESA PPA guidelines; PIDA Model Law
3. Competition Policy
  - Ease of doing business to allow for easier market entry
  - Liaise with competition regulators; create autonomous agencies
  - E.g. ICT sector

# Towards good governance for Infrastructure Development in Africa

- High-level political commitment e.g. PIDA PAP as a result of AU summit
- Harmonized policies and regulations for enhancing investment in regional infrastructure development; e.g. SADC Protocols (water, energy etc.)
- Institutional arrangement to facilitate cooperation between stakeholders involved in regional infrastructure development e.g. Zambezi River Authority (ZRA), Abidjan Lagos Corridor Development (ALCD), L'Énergie des Pays des Grands Lacs (EGL)
- Partnership (public, private and institutional) around regional infrastructure development e.g. Ruzizi III
  - blended financing (loan, grant, equity);
  - technical and knowledge based
- Wider participation and inclusiveness
- Building trust for joint infrastructure development

# Thank you
